FEEX 2027

FUTURE ENERGY EXPO & CONFERENCE

VIETNAM'S PREMIER INTERNATIONAL PLATFORM FOR SMART ENERGY, AI & FUTURE INFRASTRUCTURE

ONE ENERGY PLATFORM. FIVE SPECIALISED SHOWS. ONE CONNECTED ECOSYSTEM

ReEX Renewable Energy | StorageEX Energy Storage & Battery | GridEX Smart Grid & Power Infrastructure | EVEX EV Charging & Infrastructure | AiEX AI & Digital Energy

13 – 15 MAY 2027

VEC Vietnam Exposition Center
Hanoi, Vietnam
Cau Tu Lien Truong Sa Road, Dong Hoi, Dong Anh, Hanoi, Vietnam

ORGANIZER: Trade Event Pro, Heyday
HOST: viNen
CO-HOST: VCEA
STRATEGIC PARTNER: Vietnam ASEAN

WHERE CLEAN ENERGY & SMARTER SOLUTIONS SHAPE A SUSTAINABLE FUTURE

POWERING THE FUTURE OF ENERGY & DIGITAL INFRASTRUCTURE

As **Vietnam** accelerates its national energy transition, digital infrastructure expansion, and sustainable industrial transformation, the demand for intelligent energy systems and next-generation infrastructure solutions is growing at an unprecedented pace.

The rapid advancement of artificial intelligence, hyperscale data centers, smart manufacturing, renewable energy, and low-carbon industrial development is reshaping the region's economic landscape and creating substantial opportunities across the energy and technology value chain

Positioned at the center of this transformation, Future Energy Expo & Conference 2027 serves as a high-level international exhibition and conference platform connecting global technology innovators, infrastructure developers, industrial leaders, policymakers, and investors with one of Southeast Asia's fastest-growing markets.

The event showcases breakthrough technologies and strategic solutions across:

- AI for Energy & Utilities
- Data Center Infrastructure
- Smart Manufacturing & Industrial Automation
- Energy Storage Technologies
- Future Industrial Technologies
- Sustainable Urban Infrastructure
- Smart Grid & Intelligent Power Systems
- Renewable Energy

Future Energy Expo & Conference is designed to become the region's strategic gateway for technology sourcing, investment collaboration, and cross-border business expansion within the future energy ecosystem

HIGH-LEVEL BUSINESS MATCHING PROGRAM

A curated B2B networking platform designed to facilitate strategic partnerships and commercial opportunities through

- Project development and market expansion discussions
- Pre-arranged meetings with project owners and EPC contractors
- Networking with factory operators and energy management leaders
- Direct engagement with key decision-makers
- Cross-border collaboration opportunities
- Distributor and investment partner sourcing

LIVE TECHNOLOGY DEMONSTRATION ZONE

- AI-driven Energy Optimization
- Intelligent Operational Monitoring
- Predictive Maintenance Systems
- Energy Data Analytics
- Smart Grid Coordination Platforms
- Industrial Automation Solutions
- Digital Factory Operations
- Intelligent Power Consumption Management

ENERGY TRANSFORMATION LEADERSHIP FORUM

Key conference themes include:

- National Energy Transition Strategies
- Industrial Decarbonization
- Future Power Infrastructure
- Energy Security & Resilience
- ESG & Net Zero Commitments
- Green Manufacturing Transformation
- Green Data Centers & Digital Infrastructure
- AI for Industrial & Energy Applications

EXHIBITOR PROFILE

SMART GRID & INTELLIGENT ENERGY

- Smart Grid Technologies
- Energy Management Systems
- Smart Metering Solutions
- SCADA & Monitoring Systems
- Microgrid Infrastructure
- AI-based Energy Platforms

ENERGY STORAGE & POWER INFRASTRUCTURE

- Battery Energy Storage Systems (BESS)
- Lithium Battery Technologies
- EV Charging Infrastructure
- Backup & Critical Power Systems
- Power Distribution Equipment
- Industrial Power Infrastructure

SMART FACTORIES & INDUSTRIAL SOLUTIONS

- Industrial Automation Technologies
- Smart Manufacturing Systems
- Industrial Robotics
- Factory Energy Optimization
- Carbon Management Platforms
- ESG & Sustainability Solutions

SMART BUILDINGS & GREEN INFRASTRUCTURE

- Building Management Systems (BMS)
- Building Energy Management Solutions
- HVAC Technologies
- Green Construction Technologies
- Sustainable Urban Infrastructure

RENEWABLE ENERGY

- Solar Energy Solutions
- Wind Power Technologies
- Biomass & Waste-to-Energy
- Green Hydrogen Solutions
- Renewable Energy Developers
- Energy EPC Contractors
- Power Electronics & Electrical Equipment

AI, DATA CENTERS & DIGITAL INFRASTRUCTURE

- AI Infrastructure Providers
- Data Center Technologies
- Cooling & Thermal Management Systems
- Cloud Computing Solutions
- Industrial IoT Platforms
- Smart Sensors & Edge Technologies

CONSULTING, INVESTMENT & PROFESSIONAL SERVICES

- Energy Consulting Firms, Investment Funds
- Carbon Credit Platforms
- Industry Associations
- Research Institutes & Universities
- Financial Institutions

VISITOR PROFILE

ENERGY & UTILITIES

- EVN Ecosystem
- Power Generation Companies
- Transmission & Distribution Operators
- Renewable Energy Developers
- Utility Companies, Smart Grid Operators
- Independent Power Producers (IPPs)

Contractors

- EPC Contractors
- General Contractors
- Industrial Contractors
- Energy Contractors
- MEP Contractors
- Infrastructure Contractors

DECISION-MAKING PROFILES

- Factory Owners
- Chief Operating Officers (COO)
- Plant Directors, Energy Managers
- ESG Directors, Automation Managers
- Procurement Teams
- Digital Transformation Leaders

DATA CENTERS & DIGITAL INFRASTRUCTURE

- Hyperscale Data Centers
- Telecom Operators
- Cloud Service Providers
- AI Infrastructure Companies
- Colocation Providers
- Data Center Developers

REAL ESTATE & INDUSTRIAL PARKS

- Industrial Park Developers
- Smart Building Developers
- Commercial Real Estate Groups
- Facility Management Companies
- Infrastructure Developers

GOVERNMENT, ASSOCIATIONS & INSTITUTIONS

- Government Authorities
- Industry Associations
- Investment Promotion Agencies
- Universities & Research Institutes
- International Organizations

WHY EXHIBIT?

Access Vietnam's Fast-Growing Energy & Infrastructure Market

Engage directly with energy corporations, industrial manufacturers, infrastructure developers, industrial parks, and data center operators driving Vietnam's next phase of industrial and energy transformation.

Generate High-Value Business Opportunities

Connect with enterprises actively investing in AI, smart energy systems, ESG initiatives, and industrial optimization technologies.

Strengthen Market Positioning

Establish your brand as a key player and technology leader within the future energy and intelligent infrastructure ecosystem

Expand Across Vietnam & ASEAN

Leverage strategic growth opportunities in one of Asia's most dynamic emerging markets for energy, industrial transformation, and digital infrastructure.

Showcase Technologies in Real Operating Environments

Demonstrate practical applications, operational efficiency, and solution capabilities through live technology showcases and interactive engagement.

ABOUT ORGANIZER

With over 20 years of expertise, our team excels in both fields of exhibition and event management. We have been proudly certified under ISO 9001:2015 since 2012, demonstrating our commitment to maintaining a high-quality management system for event planning and management services. We strive to deliver excellence in every aspect of our work, ensuring seamless and successful events for our clients.

TRADE EVENT PRO

HEYDAY Hey Day Sdn Bhd

Venue: Vietnam Exposition Center (**VEC**), Hanoi, Vietnam

VALUE FOR VISITORS

- Explore energy solutions tailored to your business requirements
- Compare multiple energy providers on one platform
- Streamline decision-making and deployment

Join FEEX 2027

13–15 MAY 2027

VEC Vietnam Exposition Center Hanoi, Vietnam
Cau Tu Lien Truong Sa Road, Dong Hoi, Dong Anh, Hanoi, Vietnam

Future Energy is more than just an exhibition.

FEEX is a strategic platform that empowers businesses to accelerate growth and expand opportunities in the energy industry of the future.
